### 📁 Professional Experience

#### DAFTech Social ICT Solutions

*Software Engineer*

09/2023 – present

Addis Ababa,  
Ethiopia

As a Full Stack Developer at DAFTech Social, I collaborated on various projects across different industries, tailoring solutions to meet the unique needs of the business. I worked closely with internal teams to gather requirements and transform business goals into robust, scalable applications.

- Developed scalable .NET web applications using ASP.NET, C#, Angular and SQL Server, delivering high-performance solutions aligned with business objectives.
- Collaborated with stakeholders to understand project requirements and translate them into technical specifications, ensuring successful project outcomes.
- Delivered projects on-time and within budget, while adhering to the company's quality standards.
- Established reusable code libraries and components to enhance development efficiency and reduce time-to-market for future projects.

#### Africom Technologies

*Software Engineer*

10/2022 – 08/2023

Addis Ababa,  
Ethiopia

- Participated in the UIIDP Project providing Technical Assistance for the development of the ULGDP II & UIIDP Management Information System that supports the program's operations at the federal, regional and ULGs levels (44 cities).
- Building a web-based system using .NET Core and MS SQL Server for the companies use in BPO goals to provide Offshore outsourcing, Onshore outsourcing, Nearshore outsourcing

*Software Engineer*

08/2021 – 11/2021

Addis Ababa,  
Ethiopia

- Gaining experience on making web apps using ASP.NET framework and MS SQL Server
- Collaborating with other interns and senior developers to brainstorm and implement ideas and feedback into a web app's development
- Gathering user requirements and building a project documentation with business model for a web app project
- Developed a web app using ASP.NET, MS SQL Server, HTML and CSS
